

SECTION 01 60 00 {01600}

PRODUCT REQUIREMENTS

{PRODUCT REQUIREMENTS}

\*\*\*\*\*

This section expands requirements regarding products, their transportation, handling, storage and protection. This section also identifies product options and substitution procedures, described to permit direct reference from individual product specification sections. Edit this section carefully to specify only necessary project requirements.

This section is based on premise of using Owner-Contractor Agreement, General Conditions, and associated documents published by AIA or EJCDC delineating contractual requirements for the Work. This section supplements those requirements. When other documents are used for Project Manual, edit this text accordingly.

Articles included in this section (and summarized in SECTION INCLUDES article below) may repeat, supplement, or complement statements described in project bid documents. For purposes of contract enforceability, coordinate those statements.
